

AMENDMENTS TO THE CLAIMS

Sub F1 Claim 1 (currently amended): A pharmaceutical composition ~~comprising an emulsion~~ consisting essentially of a microemulsion concentrate including a cyclosporin dissolved in a solvent system comprising substantially fully acetylated monoglycerides having a minimum acetylation of 96%, a hydrophilic organic solvent and at least two surfactants.

Claims 2 - 14 (cancelled)

Claim 15 (currently amended): A pharmaceutical composition comprising a micro emulsion concentrate yielding a droplet size in an emulsion of substantially less than 2000 A as measured by the light transmittance through a cell, and including a cyclosporin dissolved in an acetylated monoglyceride lipophilic solvent, and a 3 surfactants.

Claim 16 (cancelled)

F Claim ² ~~17~~ (previously amended): The composition of ^{claim 1} ~~claim 15~~ wherein the acetylated monoglyceride is a fully acetylated monoglyceride prepared from unsaturated monoglyceride.

Claim 18 (previously amended): The composition of claim 15 wherein the surfactant is selected from the group of a polyoxyethylene glycolated natural or hydrogenated vegetable oil, polyoxyl 40 hydrogenated castor oil, and a polyoxyethylene-sorbitan-fatty ester.

Sub F2 Claim 19 (previously amended): The composition of claim 1 wherein said at least two surfactants further comprise two surfactants, one of which is a polyoxyethylene glycolated

natural or hydrogenated vegetable oil and the second of which is a polyoxyethylene-sorbitan-fatty acid ester.

⁴
F Claim ~~20~~ (previously added): The composition of ^{claim 1 wherein the} ~~claim 15~~ further comprising a hydrophilic organic solvent ^{is} miscible with the acetylated monoglyceride lipophilic solvent.

⁵
F Claim ~~21~~ (previously added): The composition of claim ~~20~~ wherein said hydrophilic organic solvent is selected from the group ^{consisting} of ethanol, propylene glycol, propylene carbonate, benzyl alcohol, and polyethylene glycol having mean molecular weight of less than about 1000.

⁶
E1 F Claim ~~22~~ (previously added): The composition of claim 1 wherein said ~~at least~~ two surfactants are selected from the group ^{consisting} of a polyoxyethylene glycolated natural, hydrogenated vegetable oil, polyoxyl 40 hydrogenated castor oil, and a polyoxyethylene-sorbitan-fatty ester.

Claim 23 (currently amended): The composition of claim 15 wherein said surfactants ~~further comprises two surfactants, one of which is a~~ ^{include} a polyoxyethylene glycolated natural or hydrogenated vegetable oil and ~~the second of which is a~~ polyoxyethylene-sorbitan-fatty acid ester.

^{Sub 7}
F3 Claim 24 (new): A pharmaceutical composition comprising cyclosporine, Myvacet 9-45, propylene glycol, Cremophor RH40, and Polysorbate 20.

Claim 25 (new): A pharmaceutical composition comprising cyclosporine, Myvacet 9-45, propylene carbonate, Cremophor RH40, and Polysorbate 20.
